

## Leitz Ergo Sitting Stool with Wheels and Comfort Seat

The Leitz Ergo Sitting Stool helps you to stay comfortable and productive throughout your workday! It features a triangular seat that contours to your body like a saddle, helping to spread your weight evenly for enhanced comfort. The seat is made with a unique 9cm thick Dual Density Foam (DDF). This means the foam has two layers: a firm inner layer for strong support and a softer outer layer for comfort. This combination helps you maintain good posture and reduces the pressure on your legs, making it easier and more enjoyable to sit for longer periods without discomfort.

The ergonomic stool seat encourages you to sit more upright helping to improve posture and reduce aches and pains. Tested and certified by the Institute for Health and Ergonomics (IGR), this adjustable height ergonomic stool is crafted to keep you comfortable, whether at home, office, salon, workshop or studio. Easy to clean artificial leather seat with a wipeable surface, ideal for busy environments where cleanliness is key.

Features 5 easy roll castor wheels suitable for all floor types, designed to swivel 360° for easy movement around your desk or from room to room. The castors increase resistance when the chair is unoccupied, enhancing safety and preventing unintended movement. With a wider 60cm base, these GS (product safety) and TÜV (hazard and damage prevention) certified stools offer enhanced stability, preventing tipping. Adjust the stool to your perfect height (46 - 59cm) with one of the 3 easy-access press buttons underneath the stool. The compact, space-saving design allows for easy storage under a desk.

This modern designed sitting stool with wheels is ideal for enhancing comfort and maximising productivity, fitting seamlessly in many environments. Our mission is to provide solutions that empower individuals to thrive at work and beyond, promoting positive mental health and physical wellness. Combine with other Leitz Ergo products to customize your flexible and individual sit, stand & move workstation. Stay active, feel inspired, and enjoy comfort at work and beyond – where human-centric design meets premium quality and precise German engineering. FEEL GOOD with Leitz.

## Attributes
