

GBC Velocity Automatic A4 Laminator

Save time and effort with the GBC Velocity Automatic A4 Laminator — no pouch feeding, no trimming, no hassle. It automatically aligns, laminates, and trims your documents for a perfect finish every time. Designed for high performance, it lets you feed each sheet while the machine takes care of the rest.

Ideal for offices and schools of any size, this compact desktop laminator warms up in just 90 seconds and laminates an 80-micron A4 sheet in only 36 seconds. Fast, efficient, and space-saving, it's built for everyday use.

This GBC laminating machine handles a wide range of documents, from ID cards to A4 size, as well as ad-hoc items such as long banners. It supports film thicknesses between 80 and 125 microns, providing flexible document protection. A cold lamination mode, used with GBC's unique cold film rolls, delivers a heat-free, energy-efficient alternative. The unique GBC roll film system is quick and easy to load, ensuring consistent, high-quality results. Auto Trim Technology guarantees each document has a neat, professional edge. The unit comes supplied with an 80-micron starter roll (40 x A4) and a corner rounder — ready to use straight out of the box.

A low-film indicator and power-saving mode add extra convenience. With the GBC Velocity, you can protect and preserve your important documents with a perfect finish, every time.

Attributes

- No pouch loading required, the GBC Velocity uses a unique GBC lamination roll film system. 80 micron roll film included (40 x A4).
- Fast warm-up time, ready to use in 90 seconds and laminates an A4 sheet (80 mic) in just 36 seconds.
- Compatible with 80-125 micron GBC Roll Films giving you control over the thickness of your laminates.
- Automatically aligns your document for perfectly straight lamination, every time.
- Automatic trimming technology ensures a straight and professional finish, every time.
- This space-saving compact laminator fits conveniently on a desktop and small spaces.
- Laminates documents from ID card to A4 size and longer banners (A4 width).
- Optional energy-efficient cold lamination mode uses no heat and minimal power; GBC cold film roll (code 4410080)
- User-friendly interface for simple operation, making it easy for anyone to achieve professional-quality results.
- Conserve energy with the 15-minute auto shut-off feature.
- Low noise level <50Dba for less distraction in shared areas.
- Quality and safety assured with CE and GS certification — the German safety standard awarded by TÜV.

Specifications

Number	4410076
Colour	Black/Red
Dimensions (W x H x D)	425 x 235 x 340 mm
Laminating Speed (mm/min)	500
Temperature	120C-135C
Power Supply	220-240V AC 50/60Hz
Warm up Time (min)	1.5 (80 micron) 3.5 (125 micron)
Heating System	4 rollers (2 internally heated)
Operation Mode	4 roller, temperature controlled
Max. Laminating Width (mm)	220
Max. Laminating Thickness (mm)	0.35
Max. Pouch Thickness (microns)	80-125 and Cold
Power Consumption (W)	550
Dimensions (with Tray) mm	425 x 235 x 340
Anti-Jam Technology	Not applicable
Approx. lamination time (A4)	36 secs (A4 80 micron)
Photo friendly	yes
Weight	23000 g
Pallet quantity	12
EAN code	5028252652674
